ICD-10-CM Coding Update

Beginning Oct. 1, 2019, more than 300 ICD-10-CM code changes will go into effect for patient encounters occurring from 10/1/19 through 9/30/20, impacting numerous specialties. Changes include T codes, Z codes, fractures, phlebitis, along with other injuries and conditions.

Don't let improperly coded claims put a choke hold on your revenue. This class shares all the updates your coding staff need for the new period.

Highlights:
• 273 new codes
• 30 code revisions
• 21 deleted codes

What to Bring: Participants will receive a class manual and access to faculty to address specific questions. No additional outside materials are needed.

Mastering E/M Coding

Are you confident that your provider documentation and E/M codes meet the guidelines for accurate reimbursement? E/M lays the groundwork for the reimbursement process. It is also a well known audit trigger. This class will provide the knowledge and tools you need to internally monitor billing compliance.

Class Highlights

• Relate accurate code selection to proper reimbursement
• Review sample chart notes
• Step-by-step explanation of documentation guidelines
• The down side of using EMR templates for E/M code selection
• Select proper E/M code for location and type of service provided to the patient

Registration Form Keep a copy for your records.   List additional registrants on duplicate forms.
