## Billing for Advanced Practice Providers

Medicare reimburses advanced practice providers (APP) for services that are 'incident to' a physician's service with defined guidelines. When billed correctly, these services are reimbursable at 100 percent of the physician fee schedule.

This course will help reduce audit risk when your team understands Medicare and third-party guidelines for APP service billing. Participants will learn the documentation requirements, how to avoid under-coding, and work through grey areas. The instructor will explain how to handle tough billing situations like split/shared billing, utilization of APPs in alternate healthcare settings, and collaborative agreement arrangements.

## Bridging the Gap between Clinical Documentation and Coding

This hands-on class teaches coders how to query providers to extract complete and correct information from their documentation. The instructor will review the clinical documentation requirements for ICD-10-CM and share helpful ways to communicate more effectively and positively with clinicians.

Participants will learn to identify all the components necessary in the documentation to code to the highest degree of specificity, and complete practice exercises with documentation examples and written queries.

## LIVE WEBINAR Wednesday, July 6, 2022 AM session

**Billing for Advanced Practice Providers**  
Program # 24857-0706  
9:00 am to 12:00 pm
