+ CEUs 6 per person

Practice Management Institute grants CEUs for its certified professionals based on total number of instructional hours (1 CEU per hour of classroom instruction). CEUs may be applied to annual renewal requirements as noted on pmiMD.com.

Every office that submits claims to a third-party payer must be compliant. Lack of training is not a valid defense in a federal audit. Don't get caught off guard! Even honest mistakes can result in huge fines. This basic-level class will explain the seven elements of compliance. Learn what knowledge and tools are needed to assess risk areas within the practice so you can face an audit or investigation with confidence.

This training is ideal for providers, compliance professionals, practice managers, billing supervisors, consultants, and anyone seeking a better understanding of medical office compliance guidelines.

Learn your compliance liabilities and responsibilities for hazard communication, proper disposal of PHI, mobile device security, ADA accessibility, and prescribing opioids. Know what to do when an auditor contacts your office, and how to minimize the adverse effects of fraud investigations. Implement policies and procedures that protect providers and the practice from undue risks and penalties associated with non-compliance.

The instructor will review Medicare, HIPAA, OSHA, and OIG Workplan updates with case examples. Patient communication, reporting a breach, and avoiding fraud will be discussed. This course includes sample compliance checklists, gap analysis site survey, and HIPAA-compliant forms.

Digital materials are provided. Registrants will receive an email with a link to download the materials approximately 2 days before the training event.

Fee: \$299 | 9:00 am - 4:00 pm EST | Thursday, August 17, 2023
Instructional materials and breaks included.

Registration form

Keep a copy for your records.

First Name: _____ Last Name: _____
